

TCL Turks Bart U8393

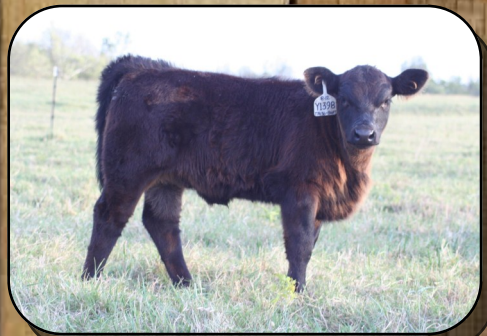

Tested Heterozygous Black and Homozygous Polled
Registered – 25% Simmental- 25% Maine-Anjou

DOB: 10/04/08 BW: 77 WW: 652 YW: 1310

Showed heavily until he was three! He was Show Bull of the Year in 2010. Bart a Turk son has truly impacted our Maintainer and Simmental herd. He has calving ease for heifers and they are all built the same sound stout way . Big on eye appeal, some with white faces. Fancy babies, that stand out above the rest. He is producing replacement females that we can breed to our Purebred Simmental sires or Purebred Maine Sires. If you need to clean the front end up and smooth out a shoulder without sacrificing performance he is your bull. His dam is maternal all the way. Top and bottom.

Semen \$25.00 Unit/10 Straw Minimum. [Genex added attraction sire.](#) Give us a call for information. 918-284-0175
