

DOB: 03/03/08 BW: 84 WW: 624 YW: 1250

Tracker is his name sake..a tracking fool. He is nice fronted, sound, hairy and has a maternal pedigree on his dam's side. His dam is non other than Veronica our donor dam of many in our herd. We used him to breed our Turk daughters with great success. Calving ease and he puts a nice look on his calves. They aren't throw away calves either. He will work on many cowherds.

Semen \$20.00 Unit/10 Straw Minimum.
